Remote Desktop Connection

PC
1. Log-in to the WSU VPN at [http://vpn.wayne.edu](http://vpn.wayne.edu) using your AccessID & password
2. For first time users, follow the guided instructions
3. Open Remote Desktop Connection
4. Click “Options”
5. Select “Local Resources” then click “More”
6. Select “Local Disk (C:)” and click OK
7. Enter the IP address of the computer you want to connect to
8. Enter the username & password and click OK
9. Confirm the shared drive by opening a file folder -- your local drive should be listed under “Computer”
10. After you have completed your work on the remote desktop connect. Make sure to disconnect from your Remote Desktop Connection when you are finished with your session.
